

NOTES:

- This sign with the 'No Parking' symbol allows an Electric Vehicle to park and a conventional vehicle to stop for up to 2 minutes to drop off or pickup passengers or goods, provided the driver does not leave the vehicle. Where it is desired to prohibit all vehicles except Electric Vehicles from stopping, then a 'No Stopping' symbol sign may be appropriate.
- Insert the appropriate 'No Stopping' or 'No Parking' symbol as required.
- Insert double, left or right arrow as appropriate.
- Supplementary plate 'Whilst Charging' can be used.

Note: Letters & Numerals AS1744:2015.
